

## JIS G4303 SUS 430 Stainless steel

JIS G4303 SUS 430 Stainless steel is a kind of ferrite Stainless Steel material. SUS 430 stainless steel chemical composition is :

C ≤	Si ≤	Mn ≤	P ≤	S ≤	Cr	Mo	N	Al
0.12	0.75	1.00	0.04	0.03	16.00-18.00	-	-	-

The surface finish type of SUS 430 we can supply are : 2B, NO.1/#1, 2D, NO.3, NO.4 .....

We also can do the further process on the surface of SUS 430 stainless steel material, like: bright finish(6K, 8K), wire drawing, sand blasting, dull polishing, colouring, embossing, etching, no fingerprint and so on.

SUS 430 stainless steel material can be produced into different product types, like : plate/sheet/coil/weld and seamless pipe / flat bar / angle steel / solid round bar / square bar / hexagonal bar / octagonal steel/ wire...

The production process of JIS G4303 SUS 430 Stainless steel we offer are: Hot rolled 430 steel plate, cold rolled SUS 430 stainless steel coil, annealing, pickling, cutting edge.

We use the standard shipment packing on the stainless steel plate/sheet/coil/bar/angle/pipe/flat bar...usually the tools are wooden or steel support, tap, waterproof paper... All of these can protect the stainless product perfectly during transportation, shipment or flight.

Bebon International as a professional JIS G4303 SUS 430 Stainless steel supplier will try our best to give our clients the best service, quality and price. If you have any inquiry about SUS 430 stainless steel, please do not hesitate to contact our sales .
